

# Updated Index

*The index in the first printing of the MetaStock Professional 8.0 manual is incorrect. This updated index contains the correct page numbers for the first printing of the MetaStock Professional 8.0 manual.*

*We apologize for any inconvenience this may have caused you.*

## A

- About MetaStock, 546
- Absolute value function, 259
- Accelerator keys
  - in commentaries, 421
  - in menus, 18
- Accessibility options, 17
- Accumulation swing index
  - function, 259
  - interpretation, 452
  - parameters, 179
- Accumulation/Distribution
  - function, 259
  - interpretation, 452
  - parameters, 179
  - sample custom indicator, 314
- Ad() function, 259
- Add
  - charts to layout, 93
  - layout dialog, 90
  - multiple securities, 47
- Add all
  - layout dialog, 90
- Addition function, 259
- Address Book, 38
- Adjust, line study, 216
- Adx() function, 260
- Adxr() function, 265
- Alert function, 259
- Alert function, system tester, 373
- Alerts (expert)
  - creating/editing, 437
  - options, 37
  - pager and e-mail, 37, 436
  - tips, 440
  - using, 436
  - viewing triggered, 440
- Alignment of header/footer, 138
- Allow mixed case ticker symbols, 33
- Ambiguity menu, 149
- And/Or operators, 247
- Andrews' pitchfork
  - drawing tips, 219
  - interpretation, 453
  - parameters, 219
- Angle
  - drawing trendlines by, 228
  - interpretation, 536
- Application properties, 32
- Apply button, 172
- Apply template, 99
- Arc tangent function, 259
- Arcs, Fibonacci, 220
- Aroon
  - function, 260
  - interpretation, 453
  - parameters, 179
- Arrange inner window, 115
- Arrows
  - placing on chart, 226
- Aswing() function, 259
- Atan() function, 259
- Atr() function, 260
- Attach experts, 441

Auto rotate, 175  
Autoscroll, 88  
Average directional  
movement function,  
260  
Average true range  
function, 260  
interpretation, 454  
parameters, 180  
AVI files  
in alerts, 439  
in experts, 421

## B

Bar chart  
displaying, 153  
Bars since function, 260  
Base security, 145  
Bbandbot() function, 261  
Bbandtop() function, 261  
Bearish 3 method formation  
function, 294  
Bearish harami cross  
function, 295  
Bearish harami function, 294  
Big black candle function,  
295  
Big white candle function,  
295  
Binary waves, 318  
Black body function, 295  
Blank background, 111  
Bollinger band bottom  
function, 261  
Bollinger band top function,  
261  
Bollinger bands  
interpretation, 455  
parameters, 180  
sample custom indicator,  
314  
Books, suggested, 549  
Border, chart and page, 136  
Breakeven stop, 342  
Bullish 3 method formation  
function, 295

Bullish harami cross  
function, 296  
Bullish harami function, 296  
Buy/hold index, 355  
Buying pressure function,  
261

## C

Cache  
File Server, 57  
online, 42, 43  
Calendar, drop-down, 547  
Candlesticks  
displaying, 153  
functions, 294  
interpretation, 456  
Candlevolume  
displaying, 153  
interpretation, 457  
Cascade  
charts, 15  
layouts, 93  
Cci  
interpretation, 462  
parameters, 181  
Cci() function, 262  
Ccie() function, 262  
CD-ROM, accessing data  
from, 78  
Ceiling function, 261  
Centering header/footer, 138  
Chaikin money flow  
function, 262  
interpretation, 459  
parameters, 181  
Chaikin oscillator  
function, 262  
interpretation, 457  
parameters, 181  
sample custom indicator,  
315  
Chande momentum  
oscillator  
function, 262  
interpretation, 460  
parameters, 181

- Change security commands, 83
- Channel lines, 216
- Chart
  - toolbar, 24
- Chart options dialog, 106
- Chart(s)
  - closing, 68, 82
