

# Updated Index

*The index in the first printing of the MetaStock Professional 8.0 manual is incorrect. This updated index contains the correct page numbers for the first printing of the MetaStock Professional 8.0 manual.*

*We apologize for any inconvenience this may have caused you.*

## A

- About MetaStock, 544
- Absolute value function, 256
- Accelerator keys
  - in commentaries, 419
  - in menus, 18
- Accessibility options, 17
- Accumulation swing index
  - function, 257
  - interpretation, 450
  - parameters, 177
- Accumulation/Distribution
  - function, 256
  - interpretation, 450
  - parameters, 177
  - sample custom indicator, 312
- Ad() function, 256
- Add
  - charts to layout, 93
  - layout dialog, 90
  - multiple securities, 47
- Add all
  - layout dialog, 90
- Addition function, 257
- Address Book, 38
- Adjust, line study, 214
- Adx() function, 258
- Adxr() function, 262
- Alert function, 257
- Alert function, system tester,  
371
- Alerts (expert)
  - creating/editing, 435
  - options, 37
  - pager and e-mail, 37, 434
  - tips, 438
  - using, 434
  - viewing triggered, 438
- Alignment of header/footer, 136
- Allow mixed case ticker
  - symbols, 33
- Ambiguity menu, 147
- And/Or operators, 245
- Andrews' pitchfork
  - drawing tips, 217
  - interpretation, 451
  - parameters, 217
- Angle
  - drawing trendlines by, 226
  - interpretation, 534
- Application properties, 32
- Apply button, 170
- Apply template, 99
- Arc tangent function, 257
- Arcs, Fibonacci, 218
- Aroon
  - function, 257, 258
  - interpretation, 451
  - parameters, 177
- Arrange inner window, 113
- Arrows
  - placing on chart, 224
- Aswing() function, 257
- Atan() function, 257
- Atr() function, 258
- Attach experts, 439

Auto rotate, 173  
Autoscroll, 88  
Average directional movement  
    function, 258  
Average true range  
    function, 258  
    interpretation, 452  
    parameters, 178  
AVI files  
    in alerts, 437  
    in experts, 419

## B

Bar chart  
    displaying, 151  
Bars since function, 258  
Base security, 143  
Bbandbot() function, 258  
Bbandtop() function, 259  
Bearish 3 DDE Server  
    (EqDdeSrv)  
    Theethodmethod  
    formation function, 292  
Bearish harami cross function,  
    293  
Bearish harami function, 292  
Big black candle function, 293  
Big white candle function, 293  
Binary waves, 316  
Black body function, 293  
Blank background, 109  
Bollinger band bottom function,  
    258  
Bollinger band top function,  
    259  
Bollinger bands  
    interpretation, 453  
    parameters, 178  
    sample custom indicator, 312  
Books, suggested, 547  
Border, chart and page, 134  
Breakeven stop, 340  
Bullish 3 method formation  
    function, 293  
Bullish harami cross function,  
    294  
Bullish harami function, 294  
Buy/hold index, 359  
Buying pressure function, 259

## C

Cache  
    File Server, 57  
    online, 42, 43  
Calendar, drop-down, 545  
Candlesticks  
    displaying, 151  
    functions, 292  
    interpretation, 454  
Candlevolume  
    displaying, 151  
    interpretation, 455  
Cascade  
    charts, 15  
    layouts, 93  
Cci  
    interpretation, 460  
    parameters, 179  
Cci() function, 260  
Ccie() function, 260  
CD-ROM, accessing data from,  
    78  
Ceiling function, 259  
Centering header/footer, 136  
Chaikin money flow  
    function, 259  
    interpretation, 457  
    parameters, 179  
Chaikin oscillator  
    function, 259  
    interpretation, 455  
    parameters, 179  
    sample custom indicator, 313  
Chande momentum oscillator  
    function, 259  
    interpretation, 458  
    parameters, 179  
Change security commands, 83  
Channel lines, 214  
Chart  
    toolbar, 24  
Chart options dialog, 104  
Chart(s)  
    closing, 68, 82  
    creating, 78  
    definition, 63, 77  
    deleting, 75  
    displaying existing, 79  
    modifying, 104  
    moving, 108  
    options, 34  
    printing, 138  
    resizing, 109

- saving, 69, 81
- scanning through, 83
- scrolling, 85
- selecting, 16, 103
- title bar, 34
- to clipboard, 8
- ChartTips, 34, 160
- Choose a security dialog, 84
- Clipboard commands, 8, 360, 397
- Cloning charts, 86
- Close
  - button, 16
  - charts, 82
  - command, 68
  - inner windows, 116
  - layout, 96
- Close All, 68
- Close all open charts
  - when open new chart, 73
- Co() function, 259
- COL variable, explorer, 385
- Collecting data
  - DataOnDemand, 42, 152, 230
  - real-time, 51
  - through the Internet, 230
  - with The DownLoader, 43, 51, 58, 61
- Color
  - data window text, 161
  - inner window, 112
  - of indicator, 171
  - of line study, 212
  - of price plot, 151
  - setting defaults, 172
  - toolbar, 25
  - x-axis gridlines, 123
  - y-axis gridlines, 126
- Commentary (expert)
  - tips, 424
  - using backslash, 417
  - using colors, fonts, formatting, 418
  - using constants, 415
  - viewing, 422
  - window, 422
  - writeif() function, 412
  - writeval() function, 413
  - writing, 410
- Comments
  - in custom indicators, 244
- Commissions
  - technical reference, 368
